With its functional modular design, Euro Shelving provides great versatility for the creation of customised storage facilities.

- Multi-purpose, fully adjustable steel shelving
- Shelves have front and rear box section construction for strength and rigidity
- Easily built and adjusted
- Shelf Clips simply slot into the frame uprights to secure the shelves in position, creating an extremely rigid structure in which shelves can be re-positioned if required
- Ideal for static, mobile or tiered shelving solutions

BioCote® PROTECTED

STORMOR EURO
Heavy Duty Shelving

Storage Bitz
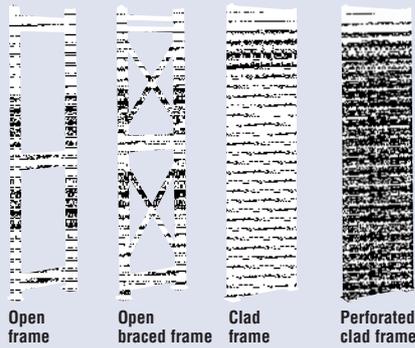

STORMOR | Euro Shelving

BioCote Protection

Stormor Euro shelving specified with Light Grey finish is BioCote protected. BioCote is a proven, patent-protected paint additive which inhibits the growth of potentially lethal bacteria and fungi. This reduces the risk of cross-contamination from surfaces with high contact frequency.

The anti-microbial agent provided by BioCote remains constant on the surface, interrupting the cells' ability to function, grow and reproduce. It has been shown to inhibit the growth of organisms such as E.coli and MRSA, thus forming an effective part of good hygiene practice.

BioCote does not deteriorate and therefore remains effective for the standard life of the painted surface.

Euro Shelving primary components

Open frame **Open braced frame** **Clad frame** **Perforated clad frame**

Locking clip - 4 required per shelf

Shelves have slot piercings to accept dividers.
(Unpierced shelves are also available).

Frame height range, mm	**from 1200 - 3600**	
Frame depths, mm	**300/400/450/500/600/750/900**	
3 Frame duties: standard, heavy and extra heavy		

Shelf widths, mm (nominal)	**900/1000/1200**	
Shelf depths, mm (nominal)	**300/400/450/500/600/750/900**	
3 Shelf duties: standard, heavy and extra heavy		

Accessories

Euro Shelving is a modular system, with accessories which are added to the basic shelving for multi-purpose storage.

1. Shelf Bin Fronts - Retain loose components for order picking. Available flat, or angled at 45°.

2. Part-Height Shelf Dividers - Partition shelves to create storage bins. Adjustable across the shelf width.

3. Full-Height Shelf Dividers.

4. Floor Trim - Provides a dust barrier between the base shelf and the floor.

5. Part-Depth Shelf Brackets - Allow shelves of different depths to be combined in a 600mm deep bay.

6. Cupboard Doors - With 3-point locking. Door Heights: Full 2100mm, Half (shown) 1100mm.

7. Timber Shelving - An alternative to steel shelves.

8. Lateral Filing Cradles - For most popular types of lateral file. Depth adjustable from 428mm-285mm (fits 500mm deep shelving bays only).

9. Garment Hanging - Adjustable rails and brackets. With 3 rail slot positions in 450mm deep brackets and 5 rail slot positions in 600 & 750mm deep brackets.

10. Steel Drawers - Fitted on telescopic runners, with compartment dividers & protective base liners.

11. Plastic Drawers on shelving - Provide easy access to small items.

12. Plastic Drawers - Available in 3 sizes. Dividers form internal storage compartments. Supplied with labels.

13. Louvre Panels - To carry CP Plastic Container range. Steel spigots for hanging storage of tools, components or materials, can also be fitted.

14. CP Containers - Useful open top plastic storage boxes, available in 6 sizes and 4 colours.
